MANAGEMENT

Our corporate governance strives to build highly-profitable, inclusive and socially-responsible companies. We pride ourselves in complying with laws and regulations wherever we do business.

OUR GROWTH

Our location in western and central Mexico has made our growth easier. We benefit from the region's infrastructure, taking advantage of air, sea and land routes to reach markets in Mexico and the United States, making us a strategic ally to our national and international partners.

OUR FUTURE

We are ready to take advantage of the economic momentum our country is experiencing.

According to international analysts, Mexico is set to become one of the top-eight economies in the world, attracting large investments. This can be attributed to the dynamism of Mexico's growing population, in addition to important international treaties and commercial agreements.

Furthermore, our geographic location makes us the ideal launchpad to the Latin-American and Caribbean markets.

Our group is working to capitalize this moment. We see a prosperous future for our companies and our partners.

HOW WILL WE ACCOMPLISH IT

We are experts in safety gloves and equipment. At Macro Industrias, we control the complete production process, ensuring the quality of our products. Our safety pledge: Our work is to protect yours.

We are developing alliances with industry leaders that share our long-term vision in the business, as well as our passion for quality and service excellence.

Our goal is to become one of the top-three companies in the Mexican industry in the next three years, eventually leading us to other geographies and markets.
